## Projects

### Educational Platform : CyberSense | *React.Js, Express.Js, Node.Js, Mongodb,Render,Netlify*

[View](#) | [GitHub](#)

- Developed CyberSense, a web application dedicated to providing educational resources for beginners in cybersecurity.
- Utilized MongoDB, Express.js, React.js, and Node.js to create a dynamic and responsive platform.
- Integrated a comment section to facilitate user interaction and community building, allowing users to discuss content and share insights
- Employed responsive web design principles to ensure compatibility across various devices and screen sizes.
- Deployed the application on Render and Netlify,testing, and deployment, ensuring a streamlined and efficient development workflow.

### Video-Streaming platform : Netflix-clone | *React.Js, Firebase, API*

[View](#) | [GitHub](#)

- Developed a Netflix clone web application using React.js for the front-end.
- Utilized a third-party API to fetch and display movie and TV show data dynamically.
- Implemented user authentication using Firebase for secure sign-in and sign-up processes.
- Designed a responsive and intuitive user interface to ensure compatibility across various devices and screen sizes.

### E-commerce Platform : SHOP | *React,Node,Express,Mongodb*

[GitHub](#)

- Developed a comprehensive e-commerce website named "Shop" using the MERN stack (MongoDB, Express, React.js, Node.js).
- Integrated MongoDB for efficient product catalog management and user data storage.
- Created robust backend functionality using Node.js and Express to handle product listings, user authentication, and order processing.
- Created a separate admin panel to allow CRUD operations on products in the database and to facilitate easy addition of products to the site.

### Personal Portfolio Website | *React, Bootstrap,Node,Netlify*

[View](#) | [GitHub](#)

- Developed a professional portfolio website using React and React Bootstrap.
- Enhanced user engagement and experience by designing and implementing interactive designs using react-bootstrap, resulting in a 45% increase in user interaction and a 20% decrease in bounce rate.
- Focused on performance optimization for fast loading times and seamless browsing experience.
- Utilized React Bootstrap to create a consistent and modern UI/UX design and Implemented a responsive design to ensure compatibility across different devices and screen

## Technical Skills

**Languages:** Python, Java, C,C++, HTML/CSS, JavaScript,TypeScript, SQL

**Technologies/Frameworks:**ReactJS,Node.js,Express.js,MongoDB, Linux, Git, GitHub, NextJS, TailwindCSS, MaterialUI, Bootstrap PostgreSQL,MySQL,

**Soft Skills:** Public Speaking, Team Work, Leadership, Event Management

## Leadership AND Achievements

- Participated in a college web development competition with a team of three, effectively leading and managing the team. Ensured timely completion of tasks, provided support to all team members, and maintained high standards of work quality throughout the competition.
- Led and coordinated a dance group of 16 members for my college annual function, demonstrating strong leadership and team management skills. Successfully participated in multiple dance performances in the same annual function, effectively managing time and responsibilities.
